

## Packages

### Basic:

- ◆ **Two camera** production, one videographer, using Sony 3-chip digital video cameras.
- ◆ **Demonstration, consultation and pre-planning** conducted in our studio or over the phone.
- ◆ **Attendance at your wedding rehearsal** to plan camera and microphone placement, and to discuss any rules your officiant may have regarding video recording.
- ◆ **Coordination** with your photographer, wedding coordinator, and reception entertainer(s).
- ◆ **Ceremony coverage** at the ceremony site includes 'behind the scenes' preparations, the ceremony, the receiving line, your exit from the church, and the formal photography session.
- ◆ **Wireless microphone**: The ceremony will be recorded using a wireless microphone on the groom to effectively capture the vows.
- ◆ **Reception coverage** includes the wedding party introductions, the best man's toast, the cutting of the cake, the bouquet/garter toss, novelty dances, and general dancing.
- ◆ **Presentation of pre-productions**: Any options you choose that are produced before your wedding day can be presented to your reception guests on our 50" big screen TV or our LCD projection system.
- ◆ **Friends and Family Interviews**: We cater to the camera shy. We'll set up our camera in a place away from the noise and commotion of your reception and invite small groups of your most important guests to offer their best wishes for the two of you. The result is often the most humorous and sentimental segment of your video.
- ◆ **No set time limit**: We don't want to miss *anything*, so we'll stay at your reception until we're sure we have everything we need.
- ◆ **Custom editing** to create a polished, professional video. Our digital editing computer is our most powerful tool for producing a video that captures and preserves all the emotions of the most romantic day of your life.
- ◆ **Professional grade media**: The completed production of your wedding video will be placed onto high quality DVDs (or video cassettes). The cassettes have sturdier housings and more durable tape than consumer grade video tapes, and the DVDs are professional grade disks. Each tape and disk is printed and packaged with custom graphics.

**\$1575**

Prices do not include sales tax or traveling expenses.

Prices subject to change.

## Packages

### Epic:

- ◆ **Five camera** production with **four** camera operators using Sony **High Definition** video cameras.
- ◆ **Love Story Interview** We interview both of you, together and separately, in a favorite or special location. We also can interview parents, friends, or others who are close to the couple to create a “Wedding Story” that tells the tale of how the bride and groom came to know and love each other.
- ◆ **Audio Commentary** Once the wedding production is complete, we sit down with the two of you and record your reactions to your wedding day. This unique feature adds a personal touch to this digital family heirloom.
- ◆ **Bonus Features** A customized batch of bonus features is available with every Epic Package. You can choose two from a variety of biographies, interviews, and mini-montages. More can be added, if you like. Some of these options include:
  - Bridal Party Biographies- They’re your best friends, tell us all about them.
  - Location Tour - If your church or reception site has historical or sentimental meaning, you or a location expert can give a guided tour of the site.
  - Wedding Elements - Everything from the bridal shower invitations to the Thank You notes.
  - Kids Montage - If you have a lot of young attendees, this montage can be a fun addition.
  - Close Family & Friends - Are there special people attending this event that you want to recognize? This feature allows you to do so.
  - Other - We can adapt and modify any of these features, or create something totally unique to fit your imagination.
- ◆ **Epic, Feature, and Highlights Versions** In addition to the standard Feature length and Highlights length videos, you receive an “Epic” cut that includes enough footage to satisfy even the hard-core viewer.
- ◆ **Demonstration, consultation and pre-planning** conducted in our studio or over the phone.
- ◆ **Attendance at your wedding rehearsal** to plan camera and microphone placement, and to discuss any rules your officiant may have regarding video recording.
- ◆ **Coordination** with your photographer, wedding coordinator, and reception entertainer(s).
- ◆ **Ceremony coverage** at the ceremony site includes ‘behind the scenes’ preparations, the ceremony, the receiving line, your exit from the church, and the formal photography session.
- ◆ **Wireless microphone** The ceremony will be recorded using a wireless microphone on the groom to effectively capture the vows.
- ◆ **Reception coverage** includes the wedding party introductions, the best man’s toast, the cutting of the cake, the bouquet/garter toss, novelty dances, and general dancing.
- ◆ **Presentation of pre-productions:** Any options you choose that are produced before your wedding day can be presented to your reception guests on our 50” big screen TV or our LCD projection system.
